RENEWED PETITION UNDER 37 C.F.R. 1.137(a) AND / OR 1.137(b)

Mail Stop: Petitions
Commissioner for Patents
Alexandria, VA 22313

Dear Sir:

Applicants' attorney received a Notice of Abandonment for the above-referenced application on January 26, 2009. The Notice indicated that Applicants had failed to timely file a response to the Office Action dated March 17, 2008. On March 12, 2009, Applicants filed a Petition for Revival of an Application for Patent Abandoned Unavoidably and / or Unintentionally under 37 CFR 1.137(a) & (b). On March 26, 2009, Applicants' attorney received a Decision on Petition dismissing the petition to revive under 37 CFR 1.137(a) and holding the petition under 37 CFR 1.137(b) in abeyance.

Applicants submit the present renewed petition to clarify the description of the master docketing procedures of Brinks Hofer Gilson and Lione (the "Firm"), to respectfully reassert that any failure to timely respond to the Office Action dated March

17, 2008 ("the Office Action") was unavoidable, and to again request revival of this application in accordance with 37 C.F.R. §1.137(a).

Attached is a declaration executed by the undersigned attorney that states that (1) neither he nor the Firm received the Office Action and (2) because the Office Action was not received, a Response was not timely filed.

In support of the present petition, the attached declaration includes a recital of the Firm's standard docketing procedure (including the procedures for both the Firm's master docket system and supplemental docket system), a detailed description of the steps taken by the undersigned attorney in verifying that the outstanding Office Action had not been received by the Firm, a true copy of the outer jacket of the Firm file for the above mentioned application with no entry relating to the outstanding Office Action, true copies of relevant portions of the Firm's master docket for this application with no entry relating to the outstanding Office Action, and a true copy of the relevant portions of the Firm's supplemental docket for this application with no entry relating to the outstanding Office Action. The attached declaration and included statements are intended to be fully incorporated into the present petition.

Applicants hereby submit that because the Office Action was not received and, thus, a Response could not have been timely filed, the present delay in responding to the Office Action was unavoidable.

In addition to the above showing that the entire delay in filing a response was unavoidable, and in accordance with 37 C.F.R. §1.137(a), Applicants submit the present petition in conjunction with a proper reply to the outstanding Office Action. Additionally, Applicants have enclosed a petition fee in the amount of \$540, as set forth in 37 C.F.R.

§1.17(l), in support of this renewed petition, and hereby request that any additional charges occasioned by this renewed petition be charged to deposit account No. 23-1925. Applicants submit that, for the reasons listed above and described in the accompanying declaration, the application should be revived pursuant to 37 C.F.R. §1.137(a) and MPEP §711.03.

Alternatively, if the Office refuses to grant the present petition for revival on the basis of unavoidable delay, Applicants respectfully reassert that their failure to timely respond to the Office Action was at least unintentional, and hereby request revival of this application in accordance with 37 C.F.R. §1.137(b).

As stated above, this renewed petition is accompanied by a declaration from the undersigned attorney, stating that (1) neither he nor the Firm received the Office Action and (2) because the Office Action was not received, the Response was not timely filed. As required by 37 C.F.R. §1.137(b) and as stated above, Applicants submit this renewed petition in conjunction with a proper reply to the outstanding Office Action. Should additional charges be occasioned, Applicants hereby request that such charges be made to deposit account No. 23-1925.

For the reasons listed above and described in the accompanying declaration, Applicants respectfully request that, should the present petition for revival on the grounds of unavoidable delay be denied, revival of the present application should be granted on the grounds of unintentional delay pursuant to 37 C.F.R. § 1.137(b) and MPEP §711.03.

Dated: April 8, 2009

BRINKS HOFER GILSON & LIONE

EPITHELIUM LAYER FROM THE
SURFACE OF THE CORNEA OF AN
EYE

Examiner: Vi X. Nguyen

Art Unit: 3734

Conf. No.: 3908

DECLARATION OF VINCENT J. GNOFFO

I, Vincent J. Gnoffo, declare as follows:

1. I am an attorney of record in the above-identified patent application.
2. On January 26, 2009, Brinks Hofer Gilson and Lione (the "Firm") received a Notice of Abandonment, attached as Exhibit A, for the above-identified application, our Attorney Docket Number 10781/26. The Notice indicated that Applicants had failed to timely file a response to the Office Action dated March 17, 2008 within the statutory three months from the mailing of the Office Action.
3. Neither I nor any other members of the Firm were aware that an Office Action had been issued until an Examiner called about the Notice of Abandonment that was being mailed on January 21, 2009. After receiving the Notice of Abandonment, a member of the Firm downloaded a copy of the Office Action for the above-identified application and found that according to the PTO records, the Office Action was mailed March 17, 2008.
4. The Firm's docket system includes a master docket, which consists of a commercial intellectual property docketing software manufactured by MDC Corp., a Thomson business, which has reliably served the worldwide intellectual property community for over 25 years. The master docket system comprises a computerized record of all PTO correspondence received, deadlines, dates, and filings related to each and every patent file handled by the Firm. Each record in the master docket

includes the application number, attorney docket number, the mail date of any received correspondence (including Office actions), and any due dates for a response.

5. The reliability of the Firm's docketing system is further ensured by the existence of a supplemental manual docket. This manual docket comprises a hand written backup journal of all received actions and due date information.

6. The standard docketing procedure of the Firm for receiving Patent Office correspondence, including Office Actions, from a post office box works as follows: The Firm's internal mailroom personnel deliver mail from the post office box as a bundle directly to the docketing department, to minimize the possibility that Patent Office correspondence may be misrouted by the mailroom. The docketing department personnel then open the post office bundle, date stamp the items, and docket all relevant deadlines in both the Firm's master docket system and the supplemental docket system. The docket department then files the Patent Office correspondence in the appropriate patent file, lists the correspondence and the deadline on the front of the file jacket, and forwards the file to the responsible attorney or agent.

7. After receiving the Notice of Abandonment, I reviewed the Firm file for the above-identified application, and the Firm docket records (both the master docket records and the supplemental docket records). I did not find any indication that the Office Action was received at the Firm. My review included the outer jacket of the Firm file for the above-identified application, the contents of the Firm file for the above-identified application, relevant portions of the master docket records, and relevant portions of the supplemental docket records. Based on my review of the above-identified materials, I attest to the following facts:

(a) Exhibit B is a true copy of the outer jacket of the Firm file for the above-identified application, and the outer jacket has not been altered in any way to mask out any entries thereto. The jacket cover shows no entry relating to the Office Action.

(b) I inspected the contents of the Firm file for the above-identified application, and I found no copy of or reference to the Office Action.

(c) Exhibit C is a true copy of the relevant portions of the master docket for all actions to be performed on or before June 17, 2008, the three-month date of the mailing date of the Office Action for the above-identified application, and this copy

has not been altered. None of the docket entries for the master docket relates to, refers to, or indicates that the Office Action was received by the Firm for the above-identified application.

(d) Exhibit D is a true copy of the relevant portions of the master docket for this application, and this copy has not been altered. The case record sheet of Exhibit D includes a prosecution history that indicates all actions due to be performed by the Firm and all actions sent by the U.S. Patent Office related to the above-identified application. None of the entries of the case record sheet of Exhibit D indicates that the Office Action was received by the Firm.

(e) Exhibit E is a true copy of the relevant portions of the supplemental docket for all actions to be performed on or before June 17, 2008, the three-month date of the mailing date of the Office Action for the above-identified application, and this copy has not been altered. None of the docket entries for the supplemental docket relates to, refers to, or indicates that the Office Action was received by the Firm for the above-identified application.

8. The Firm's mailing address has not changed.

9. I have reviewed the docketing procedures, and the relevant master and supplemental docket records of the Firm, as described above. Based on my review, I have concluded that the Office Action in this application was not received by the Firm. Otherwise, the Office Action would have been referenced in any of Exhibits B, C, D, or E.

10. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

	Examiner	Art Unit	
	Victor X. Nguyen	3734	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address--

This application is abandoned in view of:

1. ☒ Applicant's failure to timely file a proper reply to the Office letter mailed on 17 March 2008.
 - (a) ☐ A reply was received on _____ (with a Certificate of Mailing or Transmission dated _____), which is after the expiration of the period for reply (including a total extension of time of _____ month(s)) which expired on _____.
 - (b) ☐ A proposed reply was received on _____, but it does not constitute a proper reply under 37 CFR 1.113 (a) to the final rejection.
(A proper reply under 37 CFR 1.113 to a final rejection consists only of: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114).
 - (c) ☐ A reply was received on _____ but it does not constitute a proper reply, or a bona fide attempt at a proper reply, to the non-final rejection. See 37 CFR 1.85(a) and 1.111. (See explanation in box 7 below).
 - (d) ☒ No reply has been received.

2. ☐ Applicant's failure to timely pay the required issue fee and publication fee, if applicable, within the statutory period of three months from the mailing date of the Notice of Allowance (PTOL-85).
 - (a) ☐ The issue fee and publication fee, if applicable, was received on _____ (with a Certificate of Mailing or Transmission dated _____), which is after the expiration of the statutory period for payment of the issue fee (and publication fee) set in the Notice of Allowance (PTOL-85).
 - (b) ☐ The submitted fee of \$_____ is insufficient. A balance of \$_____ is due.
The issue fee required by 37 CFR 1.18 is \$_____. The publication fee, if required by 37 CFR 1.18(d), is \$_____.
 - (c) ☐ The issue fee and publication fee, if applicable, has not been received.

3. ☐ Applicant's failure to timely file corrected drawings as required by, and within the three-month period set in, the Notice of Allowability (PTO-37).
 - (a) ☐ Proposed corrected drawings were received on _____ (with a Certificate of Mailing or Transmission dated _____), which is after the expiration of the period for reply.
 - (b) ☐ No corrected drawings have been received.

4. ☐ The letter of express abandonment which is signed by the attorney or agent of record, the assignee of the entire interest, or all of the applicants.

5. ☐ The letter of express abandonment which is signed by an attorney or agent (acting in a representative capacity under 37 CFR 1.34(a)) upon the filing of a continuing application.

6. ☐ The decision by the Board of Patent Appeals and Interference rendered on _____ and because the period for seeking court review of the decision has expired and there are no allowed claims.

7. ☐ The reason(s) below:

/Kevin T. Truong/
 Primary Examiner, Art Unit 3734

Petitions to revive under 37 CFR 1.137(a) or (b), or requests to withdraw the holding of abandonment under 37 CFR 1.181, should be promptly filed to minimize any negative effects on patent term.
